CALLS-HUB
Census & Administrative data LongitudinaL Studies Hub

Introduction

- Welcome and plan for today
- The purpose of CALLS Hub - (Census and Administrative Data LongitudinaL Studies Hub)
- Introduction to SPiNe (Science and Policy Network)

Aims of Census and Administrative data Longitudinal Studies Hub – CALLS Hub

- One stop shop – information and advice
- Data dictionary
- Examples of uses of the LS's – impact
- Establish and engage with a Science and Policy Network
- Help with running UK level analysis

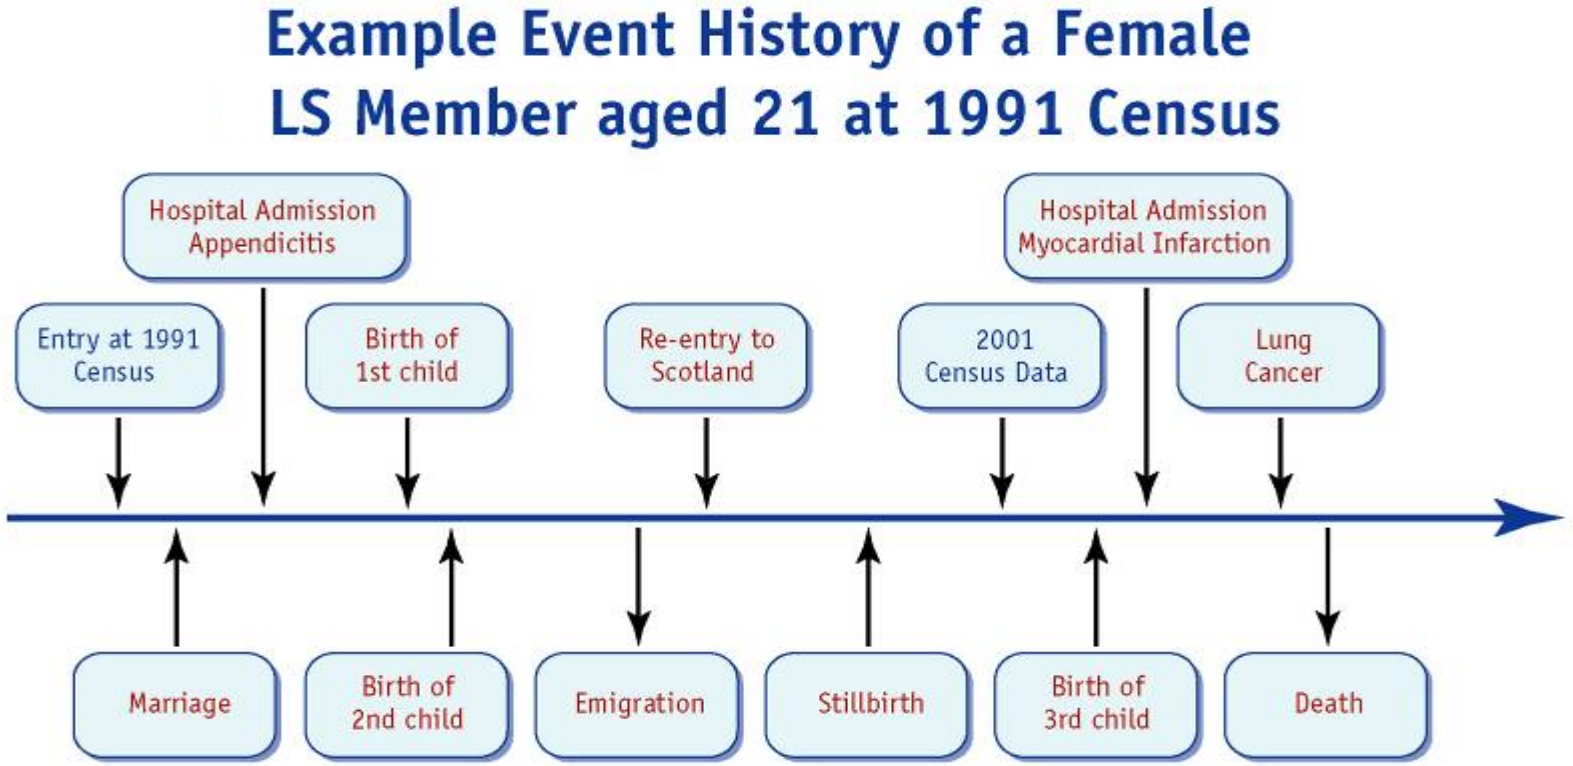
Lives linked over time

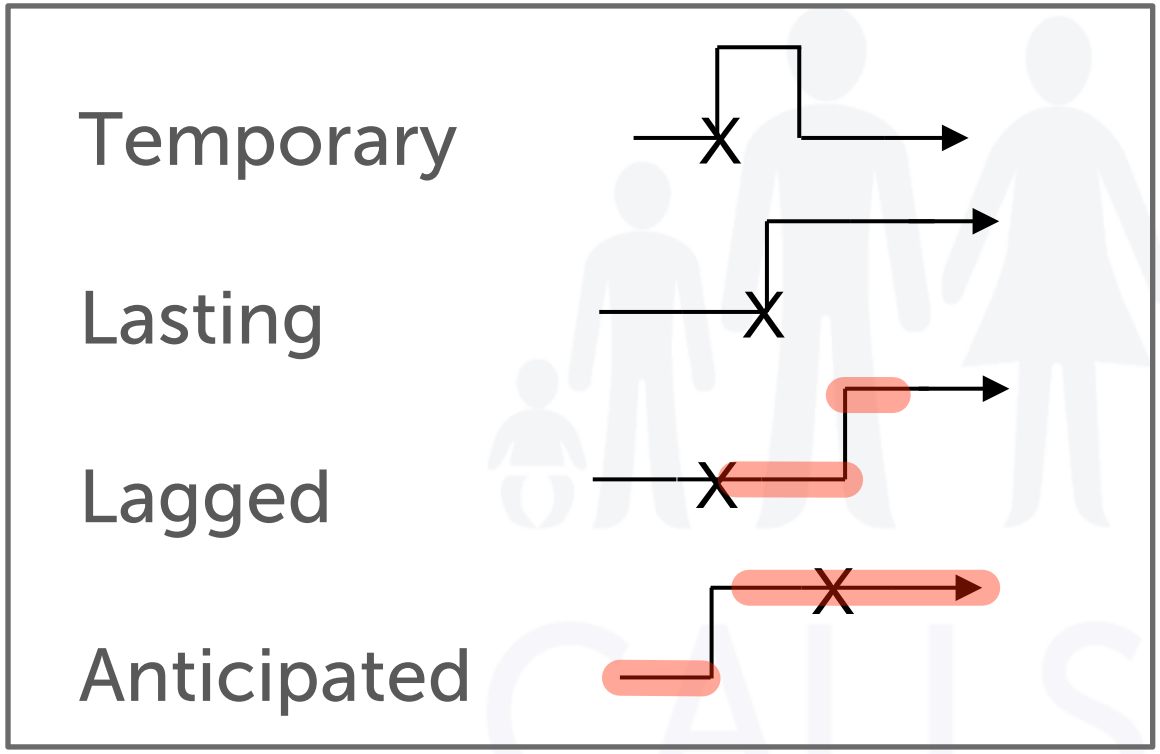


The key feature of longitudinal studies is that one uses data for **the same individual for multiple points in time**. The events may be from different data sets. It is a good way to investigate features such as social change or health change over time.

CALLS-HUB
Census & Administrative data LongitudinaL Studies Hub

Longitudinal Effects

- Age
- Period
- Cohort



CALLS-HUB
Census & Administrative data LongitudinaL Studies Hub

SPiNe

- CALLS Hub Science & Policy Network
- Aims
  - to expand the traditional body of LS data users, to include a wider range of interest groups
  - to expand the range of research themes being explored using LS data
  - to help guide future data developments

CALLS-HUB
Census & Administrative data LongitudinaL Studies Hub

SPiNe

- We aim to include
  - Existing and additional academic users
  - Local and national government users
  - Think tank analysts
  - Voluntary sector researchers
- We see mutual benefits
  - New users for LS RSUs
  - Advice and expertise to members

CALLS-HUB
Census & Administrative data LongitudinaL Studies Hub

SPiNe

- Research Working Groups
  - Clusters of researchers interested in particular issues
  - Support for data access
  - Production of impartial reports
